Gauquin Colombian Single Origin Dark Chocolate Truffles

'*Chocolate Santander*' is the first single-origin Chocolate grown and produced in Colombia.

Over 12,000 Santander Province farmer families rise with the sun to plant, pick and process carefully selected cacao beans from trees that are a hybrid between Trinitario and Criollo varieties. These beans are then processed to create an exquisite and refined, taste, the taste of Colombia.

Chocolate Santander is the premium chocolate of Compañia Nacional de Chocolates, a company committed to the well-being and future of the people in this region and country.
